Chief Director, Department of Plastic and Cosmetic Surgery,
East Hospital, Tongji University, Shanghai, P.R. China.
Vice Chief Director, Department of Plastic and Cosmetic Surgery,
Changhai Hospital, Second Military Medical University, Shanghai, P.R. China

Dear Dr. Song,

Greetings from California.

Thank you for taking time out of your busy schedule to host me at your hospital. I thoroughly enjoyed my visit to your hospital and the opportunity to speak at your 3rd Advanced Facial Anatomy And Cosmetic Surgery Workshop.

I enjoyed the opportunity to lecture on *Body Contouring After Weight Loss: Lessons Learned from an Obesity Epidemic in the USA* at this international forum. I look forward to learning from your Department of Plastic Surgery's experience in the treatment of this challenging group of patients in the future.

Thank you, too, for the opportunity to visit your Cosmetic Surgery Center. I liked seeing your three patients preoperatively and watching you perform a nasal augmentation using Gortex and auricular cartilage. Your patient had a nice aesthetic improvement. Your department is thriving under your leadership and I look forward to the opportunity to see your new facilities sometime in the future.

Again, many thanks for helping to make my visit to Shanghai so memorable.

Sincerely,

A handwritten signature in black ink that reads "Michael S. Wong".

Michael S. Wong, MD, FACS
Program Director of Plastic Surgery Residency
Director of Body Contouring After Weight Loss
Associate Professor of Surgery, Division of Plastic Surgery
